RP CONTRACTING PTY LTD

CAPABILITY STATEMENT

Heavy fleet maintenance, field service and hydraulic support.

TOWNSVILLE, QUEENSLAND

24/7 BREAKDOWN RESPONSE

COMPANY PROFILE

Local capability.
Practical response.

RP Contracting Services is a Townsville-based, family-owned business providing mechanical and hydraulic support across light vehicles, heavy vehicles over 4.5 tonnes, heavy machinery and equipment.

The business began as a sole trader in late 2017. RP Contracting Services Pty Ltd was incorporated in July 2019 and has continued to build its workshop and mobile service capability.

From scheduled fleet servicing through to diagnostics, repairs and urgent breakdowns, the focus is clear communication, practical solutions and keeping client assets operational. Work can be completed at the Stuart workshop or on site, depending on the job and the client's requirements.

KEEPING BUSINESS MOVING

VALUES THAT GUIDE THE WORK

- **Integrity**
  Do the right thing and speak up.
- **Passion**
  Bring a positive approach to every job.
- **Meticulous workmanship**
  Complete every job carefully and correctly.
- **Punctuality**
  Be prepared, on time and ready for the job.
- **Honesty**
  Communicate openly and share information.

CORE CAPABILITIES

One team.
Two specialised service streams.

RP Contracting combines diesel field service and hydraulic support so clients can coordinate routine maintenance, fault finding, repairs and urgent response through one local team.

01

DIESEL + FIELD SERVICE

Planned and responsive support for light vehicles, heavy fleets, plant and machinery at the workshop or on site.

- Scheduled and logbook servicing
- Diagnostic testing and analysis
- Engine, fuel system and component repairs
- Fleet programs and service history tracking
- Workshop, mobile and 24/7 breakdown support

02

HYDRAULICS

Mechanical and hydraulic support covering common hose, fitting, pump and service requirements for plant and fleet operations.

- Hydraulic system diagnostics
- Hose and fitting replacement or repair
- Cylinder, pump and motor servicing
- Preventative inspections and maintenance
- Workshop, mobile and 24/7 emergency support

OPERATIONAL CAPABILITY

Support across the asset lifecycle.

RP Contracting supports planned maintenance, urgent repairs and longer-term site requirements across mining, resources, transport, civil, construction and industrial operations.

01

MINING + INDUSTRIAL

Flexible support for operating sites, projects and planned shutdowns.

- On-site contracting
- Fleet and equipment maintenance
- Shutdown and breakdown support
- JSA, SWMS and service reporting

02

TRUCK + PLANT

Maintenance programs designed around uptime, safety and asset reliability.

- Scheduled and logbook servicing
- Fleet programs and history tracking
- Diagnostics and mechanical repairs
- Heavy plant and breakdown support

03

MOBILE MACHINERY

Field service that brings workshop capability directly to the job.

- On-site repairs
- Preventative servicing and inspections
- Diagnostics and troubleshooting
- Component replacement and emergency support

04

DIAGNOSTICS + REPAIR

Accurate fault finding followed by practical, lasting repair solutions.

- Mechanical and electrical fault finding
- Engine, driveline and brake repairs
- Wiring, sensors and control systems
- Component repair and preventative solutions

SOUTHCOTT HYDRAULICS

PREMIER PARTNER

Access to leading products, trusted global brands and specialist technical support.

DELIVERY STANDARDS

Quality. Safety. Reliable.

01 QUALITY

Quality means delivering exactly what has been promised, responding to client requests with consideration and completing work on time as agreed.

- Clear service commitments
- Safe work as part of every quality outcome

02 SAFETY + RISK

Hazards are identified and managed before work begins. SWMS set out the task steps, permits, PPE, tools and controls required for safe delivery.

- Pre-start equipment inspections
- Prompt incident and near-miss reporting

03 ENVIRONMENT

RP Contracting monitors operational impacts and applies practical controls to minimise dust, noise, pollution, waste and the transfer of weeds or seeds between sites.

- Equipment maintained to reduce spill risk
- Work sites protected and left tidy

SERVICE COVERAGE

Townsville and surrounding areas, with support west to mining regions by arrangement.

- Stuart workshop service
- Mobile on-site support
- 24/7 breakdown response
